A SEWING MACHINE MONOPOLY. PRESIDENT WILSON'S PROPOSITION FOR A COMBINA

TION NOT FAVORED.

A letter written by W. G. Wilson, president of the Wilson Sewing Machine Company, has been published. In substance this is an appeal to all the sewing machine companies—with the single exception of the Singer Manufacturing Co.—to form a big consolidated company, and inviting the presidents of the various companies to meet in New-York for this purpose at an early date. The new company is to be called the "Union Sewing Machine Company," with a capitol of \$5,000,000. Each company to subscribe for as much of the stock as it desires and to pay for the same with its machinery, tools and guaranteed "assets." This done, it is proposed to form an alliance with the Singer Manufacturing Company "to establish and sustain prices which would afford an average gross profit of \$12 on each machine sold." All the leading sewing machine companies received a copy of Mr. Wilson's letter, and the officers of several of them were seen by a Tribuxe reporter yesterday.

W. F. Procter, vice-president of the Singer Manufacturing Company, said that he had read Mr. Wilson's letter, and considered it the wildest scheme he ever heard of. "Why," said he, "you might just as well try to mix oil and water as to form such a combination."

"Why is the 'Singer' left out in Mr. Wilson's proposition?"

"Well," answered Mr. Procter, "I fancy he TION NOT FAVORED.

form such a combination.

"Why is the 'Singer' left out in Mr. Wilson's proposition?"

"Well," answered Mr. Procter, "I fancy he knew it was useless to try and get us into any such scheme, and no doubt his idea would be to form a combination and run against us. We never replied to h.m at all, and consider the proposition thoroughly impracticable. In a business point of view it is simply preposterous."

Mr. Simonds, of the Wheeler & Wilson Sewing Machine Company said: "I don't like to give any opinion on the matter at all, as the president is absent. I think, however, it will never come to anything." J. W. Blake, manager of the Domestic Sewing Machine Company, confessed that he did not consider the project feasible, and regarded it as of no importance whatever. He thought no action would be taken by any of the companies. The secretary of the Wilcox & Gibbs Company, Mr. Parmly, said: "It would be a splendid thing for failing companies to be sustained by*others who are doing well, but decidedly one-sided. It would practically be making the strong carry the weak. My own opinion is that it is wholly impracticable and inadvisable." Mr. Jackson, manager of the Remington Company, said he had seen the letter, but had formed no opinion on the question.

"Do you think it would be advantageous ?"

"No: I do not regard Mr. Wilson's idea as feasible, but I do think some combination might be formed which would be advantageous to all the different companies. I think some standard of price, both wholesale and retail, ought to be formed, but I have no definite plan. Certainly I do not indorse Mr. Wilson's idea."

A NOTABLE BEQUEST IN BROOKLYN.

A NOTABLE BEQUEST IN BROOKLYN.

A NOTABLE BEQUEST IN BROOKLYN.

The directors of the Brooklyn Young Men's Christian Association have received from Alanson Trask, Daniel W. McWilliams and Virginia M. Monroe, residuary legatees under the will of the late Frederick Marquand, an offer by which the association may obtain a new building. Mr. Marquand left a large sum of money in trust to be used at the discretion of his legatees for charitable purposes. They have offered to give to the association the six lots at Bond and Fulton sts., Brooklyn, a few blocks above the building now occupied by the association. On these lots the legaters propose to erect a building five or six stories high to cost about \$150,000. On the ground floor will be reception rooms and an auditorium which will extend up to the height of the third floor, and contain about 1,500 people. The library, class-rooms, meeting-rooms, and directors' room will be a series of low rooms containing baths and lockers for the benefit of those who desire to use the gymnasium. The noise of the gymnasium will thus be kept from the auditorium. The floor above that will be devoted to the gymnasium, which it is proposed to equip with every useful appliance.

The building and lots, valued altogether at \$2,000,000, will be transferred free of cost to the association, if it will carry out certain conditions. These are that the association shall raise before January 1, 1885, the further sum of \$150,000 as a permanent fund; that certain amendments be made to the charter of the association; and that the real estate and funds shall never be used except for the purposes for which the association, the directors of the association.

The ceremonies of the morning closed with a pro-cession. The Blessed Sacrament was removed from the high aitar and placed on an altar in the north transept, where all day long a crowd of worshippers were to be seen kaeeing. From now until Easter morning no organ music will be heard in Catholic churches.

churches.

This morning—it being Good Friday—the Passion will be sung and the Cross unveiled. There will be no mass except the Mass of the Presanctified. In the evening the Tenebræ will be sung. At this zervice at the Cathedral the famous Miserere by Allegri and the Benedictus Dominus Deus Israel, from the Sistine Chapel Collection, will be sung.

ACQUITTED. ON THE GROUND OF INSANITY.

Mrs. Susan Buck, who is accused of many thefts committed in this city in the last year, was retried yesterday in the Court of General Sessions. She was charged with having stolen some valuable jewelry from John H. Davis in September, 1881. There was also a charge of forgery brought against her, she having forgen the indorsement on a check made payable to Mrs. Abgail Elhott. Colonel Spencer, Mrs. Buck's counsel, read documents which showed that his client had been confined in a lunatic asylum in England, from which she had escaped and come to this country. Medical evidence was introduced to show the prisoner's insanity, and the jury acquitted her on that ground. She was sent to the State Asylum in Utica. She has been previously tried on the same charges, the jury in the first case failing to agree. ACQUITTED, ON THE GROUND OF INSANITY.

LARGE IMMIGRATION FROM ITALY.

The invasion of 1,252 Italian immigrants at Castle Garden in one day is an unusual and an unsavory occurrence. The steamer Chateau Leoville, arriving yesterday from Bordeaux, landed 752, while the Burgundia, from Marseilles and Italian ports, landed 590. Battery Park and Broadway were therefore thronged with a chattering procession of swarthy foreigners, each wearing a Rigoletto cloak and an Alpine hat strapped under the chin, and carrying a huge bundle of bedding and tin table utensils. As the Burgundia passed Governor's Island, about 300 Italians, who had assembled on the sea-wall of Battery Park, observing that she was going up the East River, started on a run to greet their companions when they should land at Harbeck's Stores, Brooklyn. The steamer Aisatia, which is hourly expected, will bring 1,100 more persons of the same nationality. LARGE IMMIGRATION FROM ITALY.

TWO CASES OF EXTRADITION. TWO CASES OF EXTRADITION.

Henry D. Kino, who was brought to this city a few weeks ago, having been extradited on the decision of a United States Commissioner in Utah on a charge of arson committed in London, was taken before Judge Brown, of the United States District Court, on a writ of habeas corpus, the argument being had yesterday. Judge Brown decided that the writ of habeas corpus must be dismissed. Chief Inspector Shore, of London, who has been in the city for several weeks, left immediately for England, taking Kino with him.

Commissioner Osborn was served yesterday with a writ of certiforari and habeas corpus, directing him to certify to the District Court the procedings in the case of Erwin Archer, whose extradition he had decaded upon. The writ is made returnable on Saturday.

BELLEVILLE, N. J., DEPRIVED OF WATER.

During the past two years Belleville, N. J., has been dependent upon the Newark Aqueduct for its water supply by a contract made in February, 1881. Some months ago a dispute arose as to the terms of the contract, and the Aqueduct Board of Newark threatened to cut off the water supplied to Belleville. An injunction was thereupon procured by the Town Committee restraining the Aqueduct Board, but it was dissolved and negotiations were entered into for a new contract. Three weeks ago the Aqueduct Board told the Belleville authorities that if payment of the amount due under the old contract was not made within a week the water would be cut off. The period was extended two weeks longer upon promise of payment by the town, but no new contract has been made and no money has been paid. Yesterday the Board cut off the public water supply of the town; private consumers will receive their supply as usual. BELLEVILLE, N. J., DEPRIVED OF WATER.

The long delayed steamship Gardenia, which sailed from Newcasile, England, for New-York on January 22, and for the safety of which there were grave apprehensions, has been heard from. She was towed into St. Michael's on Saturday last, with a broken shaft. She was met on February 11 in latitude 42° north, long tude 43° west, by the steamship Bayne, which towed her twenty-four hours and then abandoned her, en account of bad weather. The ship Wiltshire spoke her on February 22, 1,500 miles cast southeast from where the

PAYING ITS EMPLOYES FIRST. EMIGRATION COMMISSIONER ULRICH ANXIOUS HAVE THE CLAIM OF THE GOVERNMENT SET-

The employes of Castle Garden and Ward's Island, and the merchants who had furnished supplies for the immigrant institutions, were in good spirits yesterday when they learned that Secretary Jackson. of the Beard of Emigration, had returned from Albany with about \$38,300, the remainder of the \$130,000 of the last year's appropriation of \$200,000 to which the Logislature limited the Board. As the entire debt for February salaries, running expenses, etc., up to March 1 amounted to \$45,271 96, the amount drawn from the State Controller is about \$7,000 short of what is needed. President Huribut and Commissioners Forrest and Lynch met at Castle Garden and authorized the payment of the money to the employes and other creditors. Commissioner Ulrich reached Castle Garden just as the other three Commissioners finished approving the bills, and said that he wished to protest against the paying of the money until the claim of the Federal Government had been satisfied. His protest was not heeded.

Mr. Ulrich was indignant and said afterward: "My protest was absolutely ignered, and if I knew of any way to enjoin the payment of this money, until the Government has been reimbursed to the extent of about \$26,000, which the Board has illegally expended to care for inmates of the asylum and hospitals at Ward's Island, who arrived prior to August 3, 1882, the date of the immigrant headtax law. I would do so. This action of the headtax law. I would do so. This action of the three Commissioners simply indicates that the Board runs its affairs without regard to business principles or common sense. I think we should first protect ourselves by paying the Government the amount that we misappropriated for the care of State dependents."

Commissioner Hausselt's views were as follows: "We think that in justice our employes were first entitled to their February salaries. They are a class wholly dependent upon the meagre wages we are able to pay them, and often cannot wait until the end of the month for money due them. As to the care of the i

THE MINING EXCHANGE DISPUTE.

THE MINING EXCHANGE DISPUTE.

Persons who were connected with the Mutual Trust Company when it was first organized yesterday denounced the proposed suit for an accounting by members of the American Mining Stock Exchange as an attempt to compel a compromise of their claims. Rufus W. Leavitt, who wastbe secretary of the trust company when the mining exchange was organized, said: "The suit is threatened by no original members of the exchange. The first proposition of the trust company was to organize a large mining stock exchange on the basis of a certain number of memberships at \$1,000 each, secured by an equal amount of Government bonds. Other memberships were to be issued for \$5,000 each, secured by an equal amount of the trust company's stock. There were over 480 applications for exchange seats under this plan. It was abandoned because it failed to furnish the trust company with capital, and all the applications were withdrawn. Then the American Mining Stock Exchange was started, and seats were sold for \$1,000 each, the certificates expressly declaring that they only entitled holders to the facilities of the exchange. The depression in mining stocks came soon afterward, and the business of the exchange began to decay. It has cost the trust company about \$25,000 a year to maintain the mining board, and out of the 175 original members only ninety now pay their dues and are entitled to membership. Every original subscriber was given notice of the change in the basis for organizing the mining exchange. The present complainants were not original subscribers."

It is expected thin a few days the papers in the suit will be served. It was stated by one of the early members of the mining exchange that all the original receipts of members had not been surrendered.

The directors of the association, at a meeting on Wednesday night, accepted the offer, and pledged themselves to use every effort to secure subscriptions for the additional \$150,000 by May 1, so that the building may be erected as soon as possible.

THE OBSERVANCE OF HOLY THURSDAY.
Holy Thursday was observed in the Roman Catholic and Episcopal churches of this city yesterday by the designated services. At the Cathedral on Fifthave, a solemn Pontifical High Mass was celebrated at 10:30 a. m. The Cardinal, clad in his secarlet robes of office, sat upon his throne, having at his right his Vicar-General, Father Quilm, and on the left his private secretary, Father Farley. Archishop Corrigan celebrated the mass, assisted by Fathers Donovan, Davelie and Boyle. After the mass the holy oils were blessed by twelve priests. REBUKED BY JUSTICE MURRAY. REBUKED BY JUSTICE MURRAY.

Nine storekeepers were arraigned in the Harlem Police Court yesterday on complaint of Stephen H. Provost, of the Sunday Closing Leagne, who charged them with having violated the Sunday law. When placed on the witness stand Provost was unable to identify many of the storekeepers against whom he had procured warrants. All the prisoners were discharged by Justice Murray with the exception of William Bolinkamp, a grocer of No. 37 Second-ave., who Provost said told him that he intended to keep his store open, "ns the law was played out." Justice Murray informed Provost that he should issue no more warrants on his complaint unless he (Provost) accompanied au officer and identified the person he wished to have arrested. "It is a serious thing," said the Justice, "arresting people without a shadow of foundation for the arrest."

The funeral of the late Rev. Dr. George F. Kettell, Presiding Elder of the Brooklyn District of the New-York East Methodist Episcopal Conference, who died suddenly on Monday, was conducted in the Summerfield Methodist Episcopal Church, in Brooklyn, yesterday afternoon. The services were in charge of the Rev. Dr. T. H. Burch, Presiding Elder of the New-York Dastrict, and were attended by about sixty ministers of the New-York and New-York East Conferences. The pall-bearers were four clergymen, the Rev. Messrs. Peck, Reed, Breckinridge and Simmons, and four laymen, Judge George G. Reynolds, ex-Mayor Samuel Booth, John N. Phillips and Mark Hoyt. The coffin-plate bore the inscription: "George F. Kettell, D. D. Died March 19, 1883. Aged 66 years."

CHARGE AGAINST AN EX-ASSEMBLYMAN.

Ex-Assemblyman Thomas J. Gill, who describes himself as a cooper, age thirty-one, and living at No. 5 East Broadway, was a prisoner in the Tombs Police Court yesterday, charged with petit larceny. He ordered a suit of clothes costing \$13 50 from Joseph Jacobs, a clothier, at No. 83 Chatham-st., and requested that they be sent to the cigar store, No. 474 Pearl-st., where he would pay for them. Israel Katz was given the clothes for delivery, and met Gill in the store mentioned. The latter took the parcel and, as Katz declares, slipped out through a back door without paying the bill. Officer Musgrave found Gill in an attie-room in the building and arrested him. In the Tombs Police Court Gill asserted that he went to the apartments where he was discovered for the purpose of trying the clothes on previous to paying for them. He was held in \$500 bail by Justice White. CHARGE AGAINST AN EX-ASSEMBLYMAN.

SENTENCED TO BE HANGED.

In the Kings County Court of Sessions, yesterday, Judge Moore passed sentence upon Alexander Jefferson, the negro convicted of murder in the first degree, countited in Brooklyn, on December 21, 1882, condemning him to be hanged on May 11. When asked what he had to say before sentence was passed, Jefferson repired that ever since the night of the crime he had been sorry for what he had done. He was under the influence of Idagor at the time, so that he hardly knew what he was about. He forgave all who ever injured him, and hoped all would forgive him. After the sentence was pronounced Jefferson walked quietly to the criminals' room, whence he was transferred to Raymond Street Jail. His counsel will apply for a stay of execution and a new trial. The testimony did not differ from the story of the accident published at the time. The jury rendered a verdict that Mannion came to his death by drowning, caused, first, by the negligence of Thomas Mills in the use of his boat; secondly, by the negligence of the owners of the sugar house, and thirdly, by the negligence of the captain of the tugboat H. F. Caswell.

the sugar house, and thirdly, by the negligence of the captain of the tueboat H. F. Caswell.

John Gray, the owner of a tenement house at No. 272 Fourteenth-st., called the attention of the Second Precinct police yesterday afternoon to the brutal treatment of Annie Condon, a child, age seven years. Mr. Gray found the child lying on the floor moaning piteonsiy and bleeding from a gash over her left eye. On learning that the little girl had been beaten with a stick by her mother because she did not return quickly enough when sent for beer, Mr. Gray informed the police of the case. The child, her mother and Kate Condon, Mrs. Condon's sister-in-law, were taken to the police station. The two women were intoxicated and were locked up. The child was examined by a physician. Her body, arms and legs were found to be covered with bruises. She said her mother drank a great deal of beer and fiquor and beat her nearly every day, sometimes several times a day.

PATERSON.—Diana Wright, a colored woman, age eighty-two, died yesterday morning at her home in Mechanic-st. She was at one time a slave in the DeWitt family at Preakness, N. J...... The police force will have a ball at Washington Hall on next Wednesday night..... The vital statistics of the last six months, compared with those of the corresponding months of 1881-82, show a marked decrease in the rate of deaths from all causes. There were 703 deaths in the city in the six months from September, 1881, to February, 1882, inclusive; and only 045 in the corresponding six months of 1882-83, in spite of the fact that the city is rapidly growing. The improvement is attributable to the vigorous work of the Beard of Health..... The will of the late Michael Morris, of Paterson, disposes of an estate worth about \$200,000. There are a number of charitable bequests. The sum of \$10,000 is set aside and the interest of it is to be paid to the Rev. John P. Morris, of Avondale, N. J., a son of Michael Morris, After the death of J. P. Morris the principal is to be divided between 8t. Joseph's Hosmital, Paterson; Seton Hall College, the Catholic Orphan Asylum, 8t. Michael's Hospital, Newark; and the Franciscan Fathers, of Stoney Road. The Boys' Protectory, at Denville, is to receive \$1,000 at once. PATERSON.-Diana Wright, a colored woman, age WESTCHESTER COUNTY.

Mr. Vernon.—A coroner's jury yesterday determined that Mrs. Elizabeth Dryer, who was killed by a train of the New-Haven Railroad Wednesday morning, committed suicide by throwing herself in front of the train. The annual District Grand Convention of the I.O.O.F. of Westchester County yesterday elected officers for the ensuing year.

Baldwin's.—On Thursday evening, while atthe ratiroad depot, the horse of Edward Bedeil became frightened at the sound of an approaching train and ran away. Bedeil was in the wagon. The horse dashed into the engine of the train just as it was passing the crossing and was killed. Mr. Bedeil was thrown from the wagon. His head struck the depot platform and he was instantly killed.

HEMPSTEAD.—Miss Mary Smith, who was accidentally shot at Garden City three weeks ago, seems to be improving. Yesterday she was able to sit up for an hour or more. The wound has healed, her general condition is good, and the chances for her recovery are now all in her favor......The Republicans have nominated for Supervisor Martin V. Wood, who at present holds the office. The Democrats have nominated H. C. Miller for Supervisor and the other candidates on the ticket without first asking their consent. Most of them have already declined.

F. F. EDDY'S CASE.

What He Says of Dr. Sherman's Rupture Treatment.

DEAR SIRE-I wish to express my sincere thanks for the great benefit I have received from your treatment. I now feel that I am cured. I have tried for the past nine years every available means of relief without success, until I placed my-self under your treatment, since which time I have continually improved, feeling acts and secure at all times. I heartly recommend your treatment to all who may be similarly all flicted. Wishing you the same success with all I remain respectfully. Worcester, Mass, March 4, 1883.

MR. A. SPAULDING'S RUPTURE.

What He Says of Dr. Sherman's Treatment.

DR. J. A. SHERMAN:

DEAR SIR-By your books you will see that on the 28th of October last I received your treatment for a very large and troublesome rupture. Since that time I have had no more pains in my bowels, no more back-ache and my general health improved so that I am heavier and stronger and feel like a mew man. I am a farmer 68 years of age, and now able to do work which I could not do before you treated me. I am glad I went to you, and will recommend your treatment because I know it's good and a blessing to any one who is ruptured.

ARIEL SPAULDING.

Hamden, March 6th, 1883.

TWENTY YEARS RUPTURED.

Now Cured and Happy.

Dr. J. A. SHERMAN, 43 Milk-st.

DEAR SIR:—I take pleasure in stating that your treatment of my left side scrotal rupture of twenty years' standing has been a great source of relief to me. I am satisfied it has entirely cared me. notwithstanding my business is very laboritous—sugar boiling—which requires at times great muscular strain. I feel quite happy, and shall always recommend your treatment. I am well known, and you may publish my letters for the good of sufferers. Yours truly.

TRUSSES.

The fallacy of curing rupture by trusses has been fully established by the experience of past ages. There is certainly no truss that will railcaily cure confirmed rupture, or that can be truly considered, if worn any length of time, other than injurious.

What is the truss but a half-hoop of griping steel, or iron hand, provided on each side with pads to press simultaneous hand, provided on each side with pads to press simultaneous hand, pads? Are they not heating and deblinating to the back and pads? Are they not heating and deblinating to the back and pads? Are they not heating and deblinating to the back and pads? Are they not of the article for the pads toward each other attendant with spring bearing these pads toward each other attendant with rearful results? Leok for a moment into the cannot results? Leok for a moment into the truncture of man, the location of the organs, and you will say with us of that the kidneys, the bladder, the tendons, the spicen, the vertebrae, and the unimast regions must, sooner or later, be vertebrae, and the unimast regions must, sooner or later, be seriously affected by the continued pressure of the truss, and manhood destroyed ere the victim has reached the prime of life.

RUPTURE.

Since the reduction of Dr. J. A. SHERMAN'S terms, thousands are crowding upon him for treatment, giadly throwing away their griping, irksome, dispiriting and life-punishing trusses. His treatment for this affliction makes the patient comfortable and safe to the performance of every kind of exercise or labor. It is a grand thing, and those who are ruptured clase or labor. It is a grand thing, and those who are ruptured and do not provide themsetves with it must endure the danand do not provide themsetves with it must endure the danand for the control of the second strength of the control of the second strength of the control of the second strength of the second strength of the second second second in the second sec

Thousands who applied to him when his charges were high, and could not afford to take his treatment, are giadly availing themselves of his present terms. Those interested should consider this matter, the advantages and satisfaction of physical soundness, the daugers and vexation of rupture and trusses, and then act in accordance with the impulse of duty. Dr. SHERMAN'S Book gives the strongest proofs of his success for the past 40 years. It is mailed to those who send 10 cents.
